4971860036835

Wide range of capacities up to 1.2L.
Perfect for outdoor events such as camping or picnic
where everyone can share drinks.

Designed for carbonated beverages. The
structure allows pressure to escape from the
gasket when the pressure inside the bottle
increases.

Comes with an easy-to-hold handle for
convenient portability.

Removable silicone bottom cover to protect
the bottom of the bottle from impacts and
scratches.

DAILY

Featuring a double-wall vacuum-insulated structure
for long-lasting temperature retention, and designed
with an easy-to-hold handle for convenient portability.

SPORTS

Designed for sports and workouts. Made with
rust-resistant 18/12 stainless steel inner bottle, ideal
for sports drinks.

GROWLER

The AJL series is designed for carbonated
beverages. With its long-lasting cold retention, it can
also be used as a growler for carrying beer around.

FOR SPORTS DRINKS

SUS316 18/12 INNER BOTTLE MADE OF CORROSION-RESISTANT STAINLESS STEEL SUS316* 18/12

※ SUS316 (18/12) stainless steel contains 16%~18% Chromium, 10%~14% Nickel, and an additional 2% Molybdenum to enhance corrosion resistance. While SUS304 (18/8) is commonly used, SUS316 (18/12) offers superior properties. Peacock utilizes both SUS304 (18/8) and SUS316 (18/12) stainless steel to ensure that your bottle achieves optimal performance.

* Voltage varies from country to country and should be adjusted to each country's specification.

Wave Plate

A sloped corrugated plate allows oil to drip away, making grilled meat healthier and more enjoyable.

The meat's oil flows down due to the slope and unevenness.

Flat Plate

A flat plate has plenty of space to cook for the whole family. Cook up main dishes and sides all at once and get dinner done quickly.

※When using a flat plate, there is no slope.

Specially designed with non-stick durable marble coating. Easy to clean.

The used oil is collected in the oil drip tray, which is removable for easy cleaning.

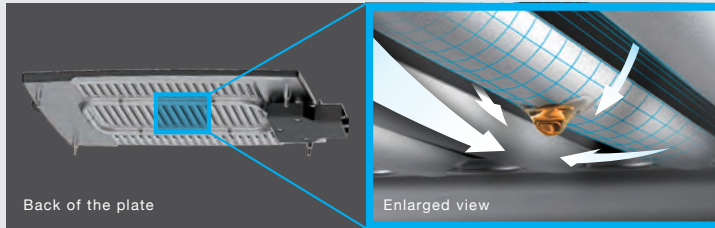

Adjustable temperature control from "Keep Warm" to "210°C".

Our own "3D arch structure" technology where oil drips quickly from the plate.

This helps reduce smoke and oil splatter during grilling, as well as minimizes scorching on the surface of the grilling plate.

Smoke Emission Comparison

Reduces smoke emission by 81% or more.

(Compared with our previous model)

Comparison test of smoke emission Testing agency: Japan Labtec Corporation Test Number: JH230430846 Test Conditions : 200°C
